

Cheryl's Budget

-Take home pay:
-\$1137.29 every two weeks/\$2,274.58 per month

-Expenses:

- \$1000.00 Savings
- Gas @ \$20 per week=\$80
- Groceries @ \$87 per week=\$348
- Cell phones-all three-\$119.98 (I get \$40 bk from Enquirer)
\$79.98
- KY Elite-\$85 per month + \$20 private per week=\$80
\$165 total
- Tutoring-\$20 per week=\$80 per month
- Mine & Patrick's prescriptions-\$63 per month
- Haircuts for the three of us-\$55
- Lunch money-\$3.50 per day/per child/per month=\$140
- Fountain drink in the morning-\$.99 per day/\$19.80 per
month
- Total Expenses:**
-\$2030.78
- Monthly cash \$2274.58 - \$2030.78=\$243.80

This leaves me @ \$243.80 per month for lunch, misc., etc.

***Ways to cut back:**

I can take my own canned drink in the morning & save \$19.80 per month. If Molly does not try-out again, this will save me \$165 per month. I can also get my hair cut every other month & that would save \$25. I can go the grocery less & use the food that I currently have in the house. This might save an additional \$20 per week/\$80 per month. These changes would save an additional \$289.80!
***Every little bit helps!
